ABSTRACT

This document provides information concerning enrollment at the University of Maine for the fall semester 1975 and some comparisons with fall 1974. Highlights are: (1) total enrollment increased 11 percent between 1974 and 1975; (2) part-time enrollment increased 19 percent and full-time 7 percent; (3) 47 percent of the enrollment is female; (4) 35 percent of the enrollment is in continuing education programs; (5) 89.6 Percent of the enrollment is residence students; (6) 320,850 student credit hours were generated; (7) 14 percent were generated at the associate degree level; (8) 68 percent were generated at the baccalaureate degree level; and (9) 5 percent were generated at the graduate and professional degree level. Enrollment percentages are also given for each campus of the University of Maine. (Author/KE)

THIS MEMORANDUM PROVIDES INFORMATION CONCERNING ENROLLMENT AT THE UNIVERSITY OF MAINE FOR THE FALL SEMESTER 1975 AND SOME COMPARISONS WITH FALL 1974. FOR A 5-YEAR SUMMARY, SEE INSTITUTIONAL RESEARCH MEMORANDUM NO. 20.

SOME HIGHLIGHTS OF THIS MEMORANDUM ARE:

- - total enrollment increased 2,822 or 11% between 1974 and 1975
- - part-time enrollment increased 19% and full-time 7%
- - 47% of the enrollment is female
- - 35% of the enrollment is in Continuing Education programs, an increase of 5% from the previous year
- - 89.6% of the enrollment is resident students
- - 39% of the enrollment is at UMO
  32% of the enrollment is at UMPG
  11% of the enrollment is at UMA
  7% of the enrollment is at UMF
  5% of the enrollment is at UMPI
  3% of the enrollment is at UMM
  2% of the enrollment is at UMFK
- - 320,850 student credit hours were generated
  14% were generated at the associate degree level
  68% were generated at the baccalaureate level
  5% were generated at the graduate and professional degree level

Comparative Enrollments, Fall 1974 and 1975

Total enrollment at the University of Maine increased 2,822 (11%) from 1974 to 1975. The increase from 1973-74 to 1974-75 was 2%. The Chronicle of Higher Education, November 3, 1975, reports a similar surge phenomenon nation-wide and attributes much of the increase to lack of job opportunities brought about by economic conditions. The part-time enrollment increase was 1,683 (19%) while full-time enrollments increased 1,139 (7%). 10% of the total enrollment increase is accounted for by the opening of a new program, Mid-coast Community Colleges Services in Rockland. Table 1 demonstrates these data.

Enrollments increased at all campuses from 2 to 26%.

Sex distribution

47% of the total enrollment at the University of Maine is female; in Continuing Education programs, the percentage is 47 and in the day-time programs, it is 46. Table 2 shows the enrollment distributed by sex, type of program, and campus.

In graduate and professional programs, 39% of the enrollment is female; in associate level programs, 45%; and in baccalaureate and special programs, 48%.

Class distribution

28% of the students enrolled are considered to be unclassified by program, of which the larger portion are in Continuing Education. Discounting the enrollment of unclassified students (8026), the remainder can be categorized by class, as follows:

Freshman	(1st year)	6,779	33.1%
Sophomore	(2nd year)	4,724	23.1%
Junior	(3rd year)	3,270	16.0%

First-time enrollments

Changes in first-time enrollments (students entering higher education for the first time) may become significant because of the cumulative effects such pressure generates over several years. This may be of particular concern if the changes reflect potential decreases in successive years. Table 3 shows this change from Fall 1974 to Fall 1975.

For two years first-time students at Fort Kent have decreased When viewed in conjunction with a 16% decrease in full-time students and an 89% increase in part-time students this year, the statistic suggests some concern. A substantial decrease in first-time, part-time students at Portland-Gorham and an increase in total number of part-time students combined with an increase in first-time, full-time students is somewhat puzzling--it might suggest a future surge in day-time students there.

Resident--non-resident status

Resident students comprise 89.5% of the total enrollment at the University of Maine, Fall 1975. 84.5% of the day-time enrollment is comprised of resident students. Table 4 provides a summary.

[1]Students entering under the regional student program of the New England Board of Higher Education are not distinguished here. A separate report is prepared by the Vice Chancellor for Academic Affairs annually concerning this program.

In-state enrollment increased 1.6% between the two years while non-resident students decreased 1.7%. There were more students from all counties except Sagadahoc and Somerset counties in 1975 than 1974.

Student course loads

While the total number of students increased with a large portion of the increase in continuing education programs, the average student course load of all students remained about the same, 11.3. The average load for essentially full-time students is 14.85 credit hours as shown in Table 5.

26% of the students carry 13 - 15 credit hour loads and 22% carry 16 - 18 hour loads.

Student credit hour generation

The accumulation of the product of the credit value assigned to each course multiplied by the number of students enrolled is designated as the student credit hour generation. These data are shown by instructional level and may more appropriately reflect instructional effort.

One should be cautioned that the data portrayed here represent the fall semester only.

320,850 student credit hours of instruction were generated for the Fall Semester 1975 compared to 291,803 for the Fall Semester, 1974. A comparative summary is shown in Table 6.

The largest portion of the student credit hours are generated at the Orono campus. Table 7 portrays student credit hour generation in percent terms.

Appendix 1 provides a summary of enrollments university-wide with more detail than has been portrayed in the text. Individual campus details are on file at the Office of Institutional Research, Office of the Chancellor, Auburn Hall, Bangor, Maine 04401 as well as at the individual campuses.
